In a credit

for tree protectors

So. Waltham 4/13/87

W. Brewster Esq.

Cambdg

Dr Sir Enclosed

find bills for putting the tree

protectors in shape for another

year. I allow you for 70-

inches - when you get ready

to put them on again. You

remember when the last bill

was settled. you Rec'd out 2

of the protectors ($6.50 I think)

because the trees were to be

cut down. I left them on

and as the trees are good ones

I imagine you are going

to let them stand. If so

perhaps you will think it

right to pay me for them

The coming Fall I shall fill the tree protectors when the time comes without having to see you. I shall also look at them thro. the Summer to see that they are in good order for I want to convince you that it is the only satisfactory way of protecting trees. Hoping that every thing is satisfactory I remain

Very Respy

C. T. Paddock.
